The RAILROAD MUSEUM OF LONG ISLAND 6-58555 Dual Produce Trailers on Flat Car

The Railroad Museum of Long Island (RMLI) is pleased to announce the eighteenth in our series of **Lionel O gauge** commemorative cars. Production of this car will be extremely limited. Funds raised from the sale of this car will go toward the operation of the Museum, including education/restoration programs, exhibits, collections and the Historic Lionel Layout.

By 1850 the **Long Island Rail Road** had lost their monopoly on passenger rail service from Brooklyn to Boston. The search was on for the railroad to create revenue streams to remain viable into the 20th Century.

Long Island farmers were interested in ways to transport fresh produce to NYC markets as quickly as possible. In 1884 the **LIRR** placed farmers' loaded wagons on flatcars. Fresh fruits and vegetables from Long Island could be at NYC markets the same day they were harvested!

The **RMLI** celebrates **America's First** "trailer on flatcar" service by the **LIRR** with this finely detailed Dual Produce Trailers on Flatcar collectible car built by **Lionel**.
